

Coaster

18 pairs Colcoton 70/2

2 single bobbins Waterlilies by Caron

Optional 2 single bobbins Waterlilies by Caron for the worker in larger fan

Start at the top of the spider. The colored Waterlilies worker for the diamond is hung in as two separate bobbins at the 4th pinhole on the left of the spider, marked by an *. To keep the Waterlilies as the worker of the diamonds throughout the piece, **CLOSE EACH DIAMOND with CTTC**, then twist the pairs appropriately.

Colored Waterlilies worker for larger fan - The darker line represents the Waterlilies worker.

Hang the Waterlilies thread above the work on a pin. Complete fan above but do not pin.

Place the Waterlilies thread on the right of the original worker. CTCT the Waterlilies thread and the original worker, twist the Waterlilies 1 time, pin between the two pairs and work new fan as normal with the Waterlilies worker.

To take the Waterlilies out at the end, when you close around the last pin of the fan, place the Waterlilies to the side and pick up the original worker to continue working. The Waterlilies will be woven in later.
